BURNING ASSETS: IDLE MEN

For the first time in many years, property to Alberta has been burned up a good many millions of dollars worth of timber, settlers' houses and town property this spring, while some lives have also been lost in the flames.

At the same time there have been thousands of men in each of the provinces affected who have had no work to do, and who, if they could, would have had no opportunity at the public expense.

This spring is burning the candle at both ends. While the permanent assets of the country were being destroyed for lack of protection, those who could have protected them were being maintained in idleness by increased taxation imposed upon those who had no work.

It would have been better sense, better business and better humanity to pay wages to some of the idle thousands to take care of the forests than to let the forest burn while the men loaf unwillingly as guests of the public.

HELP THE FAIR

Tickets for Edmonton's mid-summer fair are now on sale at the advance price of 50 cents a dollar.

The regular price is \$1.00 for adults and 50¢ for children.

There is one reason why it will be good business to buy a strip of tickets in advance. Saving thirty cents by the investment of twenty cents for a month and a half is making money fast.

Many investors will find the price of a return of one hundred and five per cent on their investment.

The more important gain is that the visitor who buys early will be able to visit the fair twice for the cost of one entry, with a dime to the good. Instead of gallivanting through the grounds in a single afternoon, the visitor can go to the fair, have a meal, with which may be as far reaching in the interruption of trade as the great strike.

be held down quite so rigidly as has been thought necessary. Council should seriously consider, in the light of this report, whether it will not be possible to do something more than the minimum amount of street railway reconstruction that was proposed, with the necessary paving in connection therewith.

For these classes of work a large proportion of the expenditure goes in wages, which in turn help to keep the workers in the city, and help the wage-earners to pay taxes due to the city.

With only a minimum expenditure under these headings business would be adversely affected, and there is a prospect that a considerable number of men who might thus be employed would have to be called on relief. From them, of course, the city could expect taxes.

It is better and cheaper to pay out wages and get value in return than to pay out relief money and get no return at all.

There is the added fact to be remembered that a large amount of reconstruction is necessary to put the street railways in good serviceable condition, and that the city is away in arrears in the matter of street improvement. The loss of a season would throw the improvement program out of schedule and make that much additional expenditure necessary in future years.

BLOCKING THE OIL REPORT

A special committee of the House of Commons has been appointed to inquire into the oil companies in Canada and has definitely taken advantage of the specific or clumping clause to increase the price of gasoline to the consumer. The charges were made and the enquiry asked for by Liberal members representing Willow Bunch and Swift Current.

The report, handed in Monday by the chairman, a Conservative, after being approved by committee members of both parties. Acceptance of the report was moved by Mr. Young, member for Weyburn, and Hon. Peter Hennan, both Liberals.

At the request of the Prime Minister debate on the oil report was adjourned.

But when the House met next day two other Liberal members, Mr. Gray of West Lambton and Mr. McPhail of Yorkton, moved that "the House do now proceed to the orders of the day." This motion was carried, and practically shut out the debate on the report of the oil committee.

The report stated that the oil companies had not been guilty of the offences charged against them. This was concurred in by Liberal and Conservative members of the committee and by the Liberals who moved its adoption in the House, and the report would have been carried had it been debated and voted on.

The action of Messrs. Gray and McPhail in preventing the House dealing with the report was apparently taken because the committee failed to substantiate the charge made against the oil companies. The public who have to stand the cost of the oil companies' conduct in the oil field management will find a way to overcome the blocking tactics of these gentlemen and proceed to deal with the report of the committee.

EDMONTON REDUCES DEBT

The balance sheet shows that Edmonton last year reduced its net debt by indebtedness by nearly \$100,000.

This is conclusive proof that the finances of the city have been well handled, and are in a sound position.

To be able to reduce debt by so substantial a sum is in times like the present, and while carrying out a moderate instalment of the street improvements program, is a record of which the city may be proud.

Any city that broke even last year, while making a reasonable effort to keep its residents employed, has done well. A city that actually cut down its debt, did remarkably well.

There is ground for hope in this showing that

capital expenditure for the present year need not

be held down quite so rigidly as has been thought necessary.

Council should seriously consider,

Social-Personal

THIS rain these last few days has just made gardens spring up, and as for bushes and lilacs—well, they are in full bloom now. By the end of the week most of them will be at their best. If you are not able to get into your garden this year, how about one of those little bird houses which so many Edmonton people seem to be putting up in their trees this season? Or if you have any trees or shrubs in your yard, there are plenty of spots up poles on which to perch the tiny houses. Even if you don't choose their homes for them, the bird house will add a decorative touch to the garden.

Your Baby and Mine

BY MARYNE NEVER LOVED

ROCKABY BABY SOON MAKES MARYTYRE OF MOTHER

When the baby is young and needs to be fed and cuddled, the mother gets an enormous amount of pleasure out of bundling him in her arms and rocking and singing him to sleep. It is a lovely, self-sufficient pleasure.

SLEEP ALONE

All we can do is to urge mothers not to start this habit. Habits are hard to break, and once a mother and well-being, sleep along in comfortable ways from the very first days of infancy that sleep follows, and the mother's determination to keep the baby with her is destroyed. Then she becomes resigned to the martyrdom of devoting some part of her day to getting the baby to sleep. And then she crawl into her reclining chair, and rock him to sleep. It is a lovely, self-sufficient pleasure.

WANT TO SLEEP

It would be nice if the mother could get a good night's sleep.

ROYALS MAKE FIRST START OF YEAR TONIGHT

Canada's Olympic Chances Rated Better Than in 1928

SENIOR TEAMS
ARE TO CLASH
IN BALL GAME

ALEX. WILSON CONSIDERED REAL THREAT

Expect Percy Williams to be in top form for the Coming Games

by BILL LEWIS

Canadian Press Staff Writer

WINNIPEG, May 28 — Two

months before the opening of the

Olympic Games at Los Angeles

next summer, Percy Williams

and his compatriots are

beginning to show signs of

improvement.

The impressive

list of new records

set by the group, v.

Olympic competitors,

is a sure sign of one

Canadian, now one

of the best in the

world.

As the United

Nation's most

promising list of pre-games

records in 1928, however, and the

greater share of action

occurred at Amsterdam, the emphasis

now is on the forthcoming

Games. Despite a

few minor blips, the

canadian team has

been making

solid gains over the past few

months.

That will be

a work with seeming almost

from the bottom. Webb has

seen the light, and

the rest will follow.

With the return of Percy

Williams to the track

and the rest of the

team to the field, the

canadian team will

be a force to be reckoned with.

With Williams and Captain Bill

Winnipeg, the canadians

have the makings of a

real competitor.

Nothing definite has been done

about this, although it is known

that some of the pro performers

are anxious to don spikes and

gloves.

With all the recent

successes in the games, there

could be some fine

exciting racing from the pros

champions as they compete

in the amateur ranks.

RAILROADERS TAKE FOURTH GAME IN ROW

C.N.R. Football Squad
Wins Over Civics by
17-6 Score

C.N.R. Football Association's fourth season opened at the Canadian Senior School last night. Civics Squad showed up to take the first game, getting their 17-6 win in the same way the Railroaders did in the previous three games, with south and southeast calling two runs in each of those frames.

Jack Watson again had a hand in each of the Railroaders' four wins, repeating his performance of last season of dropping one run away.

Desmond Auld and Galtorpe were the other Railroaders who had a hand in each of the Railroaders' four wins, repeating their performance of last season of dropping one run away.

At the end of the Railroaders' four wins, the Railroaders were able to repeat their performance of last season of dropping one run away.

Burleigh Grimes Pitches Shutout Win For Cubs Over St. Louis Cardinals

REFUTES ALL CLAIMS THAT HE'S THROUGH

Boston Braves Retain League Leadership by Win Wednesday

By GAYLE TALBOT

Associated Press Writer

NEW YORK, May 25.—Burleigh Grimes admitted from the witness chair only three days ago that he was just about "washed up" as a big-league pitcher, but he would have gotten away with it had his manager, E. B. Bradley, not had to miss Burgo King's victory in the Preakness by order of his physician. He's over at Belmont Park now, watching other horses run, and wishing there was another rich stake for his Burgo King to grab off pretty soon.

The Red Birds were ready to avenge today what their 35-year-old skipper has plenty of jots written down in his aged right hand.

He had proof that Burleigh still can tell a vindictive curve when he was in the game last Saturday. The Birds encountered their former teammate for the first time since helping him win a world championship last October.

Tossing for Chicago Cubs, he set Joe Tinker to work with seven scattered hits and shut them out, 3-0, which wasn't all bad for a man who had been given a start for the Cubs and his third victory.

Bobby Brown, the 20-year-old sensation from Birmingham, kept Boston in the lead with two runs in the fifth by defeating Brooklyn, 4-2, on four hits. The youngster who began his baseball career by being Dazzy Vance's most modest month ago, was invincible in all but two games.

For the third straight day the Giants and Phils engaged in an old-fashioned battle for third place. They made it out of three of the series by winning 12-8. Bill Terry had a hand in both wins, driving in runs with his tenth home run of the year, a double and a single.

WHAT? HOST SUIT MINUS? SECURE ONE

Well Dressed Gentleman Will Wear Canary Pants — Clothes Make Man

NEW YORK, May 25.—A host of men who aren't "showed" for formal dinners at home might just as well go out and get run over by a beer truck. If your pants have buttoned on you will be as old-fashioned and as prissy as a woman. And if you're thinking, do you go near the beach this summer under your own a pair tinted jacket and canary-colored flannel pants.

The tailors are in town and there is a lot of cutting up and putting in. They are still making sporty sportswear from Park Avenue to Boston and lecturing on such happy subjects as how to make a man's legs look better, how to keep his feet from getting cold, how to make his coat fit, how to make his coat look good, and so on.

One of Game's Greatest Players Has Yet to Win Open Crown

By ART KRENZ

If a member of the American class must again win the British open, he has dominated for eight years. Mac Smith is the choice of our English cousins. Should he be the first of the five going Smits will be runner-up to the British crowd.

Smith has been hammering at the door of national championships for 22 years, only to have them clammed in his pocket.

Hard luck has dogged him in every tournament he's ever played in. He may never win either of these but when his career is over he will be one of the greatest players of the game.

HE'S ABOUT TO NOW

These snap short, fellow are a bit of a pain in the neck. They are confused with ordinary loft workers. They are not designed. They are not built to last. They are not East Boston composed on overcast with eagle cut like M's in honor of the Boston Red Sox. They are composed over a paper "Norma" 100 years ago, when lapels such as these were worn.

Frank C. Nagle of the New York Custom Cutters Club composed the pattern for the new style. It has a broad front and eliminates the embrasure of peeling buttons.

The "hot" suit probably won't be the fashion of the style show and wear the hot pants of the gay chorus man in town.

It takes more than a suit and coat. It's a gaudy affair, reminiscent of the other things) and is quite likely to receive cambrie jackets and broadred trousers. The "hot" suit is not cut like a tuxedo and comes in cadavers as well as velvets. A brown, lavender or mulberry is offered.

France Preparing To Pay Off U.S.

PARIS, May 25.—The French Economic Et Financiere said today it understood France would sign an agreement with the United States next week providing for repayment of debts at four per cent over a period of ten years, the total debt having been waived by the Hoover administration.

It was understood the arrangement would be made before June 1.

In Britain again

Smith again is in Britain tuning his kettles. He has had a few more good seasons left, only a few more chances to prove his worth.

He has helped to put the Smith trade-mark on golf. His greatest achievement is having won two American Opens. Willie was the winner in 1908 and Fred McLeod in 1903.

Followed Brothers

In 1908 Mac decided to follow his brother and in 1913 he won the California

Burgoo's His Hoss

Yes, said Col. Burgoo King, that good thing in the Kentucky Derby and the Preakness, was born in Colfax, E. B. Bradley, above, son, master of the late Harry Keenly. The colonel, watching his horse take the Derby, making his third triumph in the meet, had to miss Burgo King's victory in the Preakness by order of his physician. He's over at Belmont Park now, watching other horses run, and wishing there was another rich stake for his Burgo King to grab off pretty soon.

WHEAT PRICES FOLLOW LEAD WALL STREET

WINNIPEG. May 26—Reflecting the weakness displayed by stocks wheat prices edge over in featureless trade. The market is still in a holding pattern in weeks wheat closed 1¢ to 5¢ lower for the day.

May wheat closed at 43¢; July and October each dropped 3¢ and 6¢, respectively.

The market for export was a minus quantity.

Opening fractionally, the market took its cue from Chicago, and in featureless trade receded to close at the low points. Weakness at Chicago was reflected in the market in the securities market. The anticipated improvement in the direction of wheat prices was a minus factor.

Trade reports that the crop in India and seasonal stocks in Europe will be well for future exports were a plus factor.

Cash wheat and coarse grains generally showed unchanged movement.

Tariff Concessions Are Not To Enter Into St. Lawrence Waterway Plan

BENNETT WILL NOT SANCTION ANY REPRISALS

Ironing Out of Questions Stands in Light of Treaty

OTTAWA, May 26—Tariff concessions from United States will not enter negotiations for the St. Lawrence waterways scheme, Premier R. Bennett told the house of commons yesterday. He urged members to take no immediate measures to make any changes in United States legislation as they affected Canadian exports before the treaty was signed.

The ironing-out of questions between Canada and the Dominion stood in the light of a treaty, the Prime Minister said, and this must be done before any changes in the Smoot-Hawley tariff, lumber, timber, naval negotiations for adjustments in United States duties on copper, lumber, pulp and cream and any other products, or on water diversion as a preliminary move before a St. Lawrence treaty.

Hon. J. M. MacEachan, minister of National Defence, proposed negotiations aimed at tariff and fiscal concessions to the United States in certain industries, particularly fishing.

The two administrative announcements emerged from a speech by the hon. hon. Robert W. Peart, minister of agriculture, before setting up a marketing board for the Canadian grain system. The minister said the government had no intention of making any concession to study the advisability of a national legislation.

Among the topics to be studied by the agricultural commission will be the question of a marketing board. Mr. Peart said, in view of the approaching imperial economic conference, it would be necessary of approaching other Empire countries before setting up a marketing board for the Canadian grain system. The minister's statement came a few minutes before the House heard the introduction of a confidence motion directed against the government by Miss Agnes MacEachan on its farm policies.

internal relationships. There is diversity in unity, it is an experienced staff, a well trained staff, a staff who have given their best to its work. We have a cause worth fighting for, helping boys and men to become better citizens. We have identified with an established Christian organization, which has grown steadily over the years, after 25 years of expanding service in behalf of the youth of this great Canadian city, we have a strong foundation for the future.

The chairman stated that he had called 364,379,62.

General figures for the year showed that total revenue, from all sources, was \$23,563,96, while the expense totalled \$23,563,40, leaving a net operating loss of \$543.45, to which was to be added the amount of \$1,500,000 in the loan totalling \$10,552,000, thus bringing the total deficit to \$10,553,45.

The chairman said that he had had to resign, owing to their leaving this city. These were R. L. Sutherland, president, and his two directors paid tribute to both, who, during the last six years, had given their time and energy. At all times they had been willing to give their time to serve on any committee, and the chairman stated that Mr. Sutherland had been president of the association for four years and Mr. McCallum had been finance chair man for two years.

PHYSICAL DEPARTMENT
The report of the physical department, presented by Mr. V. A. Porter, secretary of the department, said that the aim of the department was to help boys and girls to gain experiences in activity, friendly association and sportsmanship to help them be gifted and assist the less fortunate.

Of the 45,000 who had attended camps in 1931, 23,760 were men and 21,282 were boys. Regular periods for training, exercise and recreation had been held from Sept. 14 and to a greater extent ending April 15.

In softball there had been 18 teams, 1000 games, 25,000 hours 26 in the current year. Other branches had shown marked increase.

EXCELLENT WORK
The boys work report dealt with the manifold activities of the department, and attention was devoted to the two camps at Hastings Lake and Jasper.

EXCELLENT WORK
Edmonton boy V. A. Porter emphasized the excellence of the staff and drew attention to the excellent work done by Mr. Barrett and his wife. He lauded the work done by Mr. Barrett and through him the work of the department. The boys engaged in this work, in after life would look back with a great deal of pride, and the department and then would appreciate in greater measure the work being done by Mr. Barrett.

Mr. Porter did not think the comparatively small deficit a matter of serious concern, as the necessity of having finances and said that the department had applied themselves to the task of deriving ways and means whereby additional monies could be obtained.

"The work of the Y.M.C.A. is the work of the city of Edmonton," he said and added that the department had about 10,000 users. The poorer lads mingle with those from the more moneyed homes, and that is what often follows after a pretty good chapter all day. This is good for young men, and the department, in future greater support will be forthcoming from a greater number of users.

Evangelist Sought

Authorities are seeking Fern Wood, 31, below, reputed evangelist of Aimee Semple McPherson's Four Square gospel organization at Bell, Calif., for questioning in the alleged disappearance of a girl and two boys, who, police charge, had been induced to join the evangelist in some mysterious religious work.

Bribery Charge Is Withdrawn

South African Member is Absolved of Blame

CAPE TOWN, S.A., May 26—A selected committee of the house of assembly appointed to investigate allegations made by J. H. Mannikin, government member, a charge of bribery, today reported there was no foundation to the charge.

The committee found Mr. Mannikin guilty of a breach of privilege in obtaining passage of a bill, but recommended that the representatives of the national government be held responsible.

Copper, Timber Tax Not Voted

U.S. Tariff Against Canadian Products Held Up

OTTAWA, May 26—The proposed U.S. duties against Canadian lumber and paper products have not yet passed the United States Senate, but the bill is expected to pass, Premier R. Bennett informed the House of Commons to-day.

The Canadian Minister of Trade, C. E. Howard (Lip), (Sherbrooke) who asked that Canadian milk and cream and copper and lumber, as well as the other diversified products of Canada, should be adjusted between Canada and the United States, in accordance with the St. Lawrence development, is silent.

In reply to a question, the Prime Minister stated that these had gone into effect and that the Canadian government and the members of the Senate of Canada would be adequately protected.

Fish Killed by Guns of Navy

Big Ships Getting Unpopular With Sportsmen

SAN FRANCISCO, May 26—Uncle Sam's navy is decidedly unpopular with sportsmen here, especially California waters. And with fishermen, too.

This was made clear today by Superintendent Arthur Alstry of the State Fish Exchange. He said naval patrols, which had been set up for safety, had been so effective that they had gone into effect and that the Canadian government and the members of the Senate of Canada would be adequately protected.

Faith at Sight Of His Tax Bill

PUEBLO, Colo., May 26—A citizen walked into the office of his tax collector and asked for his tax bill, but when it was handed to him he took a look at it, withdrew the money to pay off his debts and then went to go a little further off shore before they start their "boom, boom."

It seems that the noise and the expense of embarking the fall catch so that some of them have been killed.
